

Financing your home renovation

 SCU

Transform your home into your dream home

Home renovations can be an exciting opportunity to re-imagine your living space, elevate your home's curb appeal, and increase the dollar value of your investment. Navigating home renovation projects can also be challenging, but with a sound financial strategy, one that leaves room for the unexpected, you can pull together a successful home renovation project.

Why choose SCU?

When you work with us, you'll enjoy some amazing benefits:

Flexible options

We offer flexible financing options and built-in controls that protect you from risks such as unforeseen costs.

Fast, local decision making

We live and work in the same community as you do, so we understand the market, and are passionate about building strong communities with you.

Work with experts

Our lending specialists are trained specifically on renovation mortgages, so you can lean on us for advice and guidance every step of the way.

HIGHLIGHTS OF OUR RENOVATION MORTGAGE

- Spread out the cost of the renovation over the duration of your mortgage
- Our rate guarantee protects you from interest rate increases after your preapproval meeting
- Leverage your home's current value, or the value of your home upon renovation completion

WHY RENOVATE?

One of the first decisions you will make is to decide why you want to renovate. From a financial perspective, it's important to find the balance between adding your personal style and protecting the value of your investment.

Which of the following make sense for you and your goals?

- Increase the market value of your home
- Add your personal touch and improve the aesthetic appeal of your home
- Create additional living space
- Create your dream home in your existing community
- Save energy
- Modernize your space to elevate functionality
- Decrease and simplify home maintenance

With our renovation mortgage, you can complete renovations yourself, hire a contractor, or a combination of the two.

Renovation project milestones

01 Meet with a lending specialist

In our meeting we will:

- Calculate financing options and give you the tools to build your renovation timeline.
- Discuss financing solutions.

Gather plans, blueprints and quotes for major expenses.

02 Make a plan

Meet with your lender to finalize your mortgage and sign the documentation.

03 Begin project

Consider keeping track of non-construction related expenses as well.

We recommend you have all your permits in place.

If discussed with your lender, make sure you schedule your progress inspections.

04 Stick to the plan

A good plan will build some overage or "wiggle room" into your budget.

05 Enjoy your new space

Your mortgage options.

Real solutions for real life

Our goal is to help make owning a home convenient and affordable. That's why we offer excellent rates on mortgages of all sizes, with both variable and fixed-rate options, as well as flexible payment schedules that meet your needs.

01 Fixed Rate Mortgage

SECURITY AND CERTAINTY

Offers a guaranteed rate of interest and set payment amounts for a specified period of time.

Advantage

- Easier to plan, budget for expenses
- Protected from rising rates throughout the term length

Consideration

- Generally a higher interest rate
- If rates decrease, you won't take advantage of lower rates

The bottom line

Could be your best bet if you're risk-averse. You can take comfort in knowing exactly how much equity you'll build by the end of your term.

02 Variable Rate Open

FLEXIBILITY TO REPAY

Offers the most flexible repayment options. The amount paid toward principal and interest fluctuates as rates change.

Advantage

- Can be repaid at any time without penalty

Consideration

- Variable open is typically the highest interest rate we offer

The bottom line

This option is the clear winner for those who want to pay off their mortgage in less than five years.

03 Variable Rate Closed

GET AHEAD IN AMORTIZATION

Offers a set payment amount each month for the duration of the term. The amount paid toward principal and interest fluctuates as rates change.

Advantage

- Pay your home off faster if rates decrease

Consideration

- As rates increase, more of your payment goes toward interest

The bottom line

Could be your best bet in a declining interest rate market because you'll build more equity as rates decrease. Offers a discounted rate compared to variable open because of your commitment to a 5-year mortgage term at SCU.

04 Variable Rate Capped

THE BEST OF BOTH WORLDS

Offers the flexibility of a variable mortgage, but capped at 1% above the current posted rate for a 5-year term.

Advantage

- Enjoy the potential cost savings of a variable rate mortgage
- Have peace of mind knowing you're protected from rising rates

Consideration

- Only valuable with a sufficient difference between fixed and variable rates.

The bottom line

An option to consider in rising interest markets that offers a protective ceiling while still giving some of the benefits of a variable mortgage.

OTHER FINANCING OPTIONS

Not everyone wants to tap into their existing mortgage to fund a home renovation, particularly if the cost of the renovation is relatively small. SCU offers the perfect solutions, including loans and lines of credit. Regardless of the product you choose, you'll still enjoy competitive interest rates, flexible payment options, and fast, local decision making when you work with your SCU lender.

Ready for renovations part-way through a mortgage term? No problem, we can help! Ask us for details.

Preapproval meeting

When you've made the decision to renovate your home, your first step will be to sit down with a lending specialist. Together, you will:

- 01 Review your current financial picture
- 02 Define an affordable budget
- 03 Discuss your home's current market value
- 04 Assess your available equity
- 05 Explore the impact of the renovation on your home's value
- 06 Calculate the "high-level" budget
- 07 Explore lending solutions

TAP INTO YOUR HOME'S VALUE

You have the ability to borrow on the "as-complete" value of your home, even before the renovation work is complete.

SCU makes the financing process even easier: You can start the application process online for all SCU loans, lines of credit, and mortgages. Visit scu.mb.ca/renovation to learn more and get started today!

PREAPPROVAL CHECKLIST

There are a few documents you'll need to gather prior to our meeting. You'll need two pieces of legal and/or government-issued identification (ID), one of which must be from List A.

2 pieces of legal, government-issued ID (must choose 1 ID from list A)		
LIST A	LIST B	
<input type="checkbox"/> Canadian or foreign passport (preferred, as we require your full legal name) <input type="checkbox"/> Driver's license (Canadian or foreign) <input type="checkbox"/> Permanent resident card <input type="checkbox"/> Secure Certificate of Indian Status <input type="checkbox"/> Citizenship card (issued prior to 2012) <input type="checkbox"/> Enhanced ID	<input type="checkbox"/> Birth certificate (preferred) <input type="checkbox"/> Citizenship card (issued after 2012) <input type="checkbox"/> Record of Landing or visitor record <input type="checkbox"/> Work or study permit <input type="checkbox"/> Temporary Resident Permit or Confirmation of Permanent Residence <input type="checkbox"/> Nexus / FAST global entry card <input type="checkbox"/> Metis / treaty card <input type="checkbox"/> Fire arms license <input type="checkbox"/> Major Canadian credit card (we do not accept credit cards from 'virtual banks' or store credit cards)	
Proof of income	List of assets	
<input type="checkbox"/> 2 recent paystubs <input type="checkbox"/> Most recent T4 <input type="checkbox"/> T1 General (personal tax return) If you are self-employed, you'll need to bring 2 years of Personal Income Tax Returns and Financial Statements.	<input type="checkbox"/> Proof of down payment (statement of bank accounts or gift letter) <input type="checkbox"/> Vehicles (year, make, model) <input type="checkbox"/> Recreational vehicles <input type="checkbox"/> Investments <input type="checkbox"/> RRSP / TFSA <input type="checkbox"/> Owned property <input type="checkbox"/> Other real estate holdings	
List of liabilities		
<input type="checkbox"/> Existing mortgages <input type="checkbox"/> Balance of mortgage and monthly payment <input type="checkbox"/> Property tax amount	<input type="checkbox"/> Credit card balances <input type="checkbox"/> Car loans <input type="checkbox"/> Lines of credit <input type="checkbox"/> Co-signed or guaranteed loans	<input type="checkbox"/> Student loans <input type="checkbox"/> Child support payments <input type="checkbox"/> Spousal support payments

We'll help you finish your project within a reasonable time frame and a budget you can afford.

Estimating your home equity

Use this worksheet to estimate how much equity you'll have available for your renovation.

	Example	Your home
Current value of home	\$400,000	\$
Maximum advance ratio available	x80%	x80%
	\$320,000	
Maximum financing available	\$320,000	\$
Less outstanding mortgage balance	-\$200,000	-\$
Available equity for the renovations	\$120,000	\$

AFTER ESTIMATING EQUITY:

Your second meeting

In the second meeting, we'll finalize your funding, so be sure to bring along quotes for the work to be completed.

Other important things to know about financing a home renovation

Quotes on major expenses

It's a good idea to create a budget regardless of the project size. The more information you collect, the better your estimated costs will be. Talking to at least two contractors and collecting multiple estimates helps you find the right combination of dollar value and working relationship.

Permits and appraisals

Although permits are not part of our approval process, we strongly recommend consulting with your rural municipality or city website to determine if permits are required for your renovation. When securing financing with us, we may require a property appraisal. We have two ways to verify your home's current value, either with a property tax assessment or an independent appraisal. Your lender can help you decide if an appraisal is required, and if so, which option will work best for you.

The importance of progress inspections

If the total cost of your renovation is greater than \$100,000, an appraiser must complete progress inspections prior to funding milestones. These progress inspections are important: they allow us to advance funds at the right time and when the appropriate work is complete.

Cost overruns

Sometimes the unexpected happens and the actual costs are greater than your original budget. We can help you proactively manage these situations. Ask us about the benefits of opening a line of credit to help you manage unforeseen costs.

Our 20% pre-payment privilege

We offer a special pre-payment feature for renovation mortgages, where you have the option to make additional payments, without penalty. These payments can be in the amount of 20% of the initial mortgage balance per anniversary year, regardless of the current mortgage balance. You have complete freedom in what these payments look like, whether it's a single lump-sum payment, or payments over time.

All information in this brochure is subject to change without notice and is not binding on decisions made by SCU
